

Handcrafted from the finest wood available,

Andersen® entranceways introduce

your home with uncommon elegance.

They showcase artistry, intricacy and exceptional

beauty to complement the character of your

home and those who live inside.

On cover:

Straightline (331)

Shown as a double door in mahogany*

with a direct-glazed Arch transom.

Hardware manufactured by others.

* Actual wood is sapele, a non-endangered species of mahogany, grown in Africa, with color and characteristics similar to American mahoganies.

Arch (332)

Shown in mahogany* with
sidelights (118) and custom grilles.
Hardware manufactured by others.

* Actual wood is sapele, a non-endangered species of mahogany, grown in Africa, with color and characteristics similar to American mahoganies.

The sum of its parts

Dramatic shapes and sizes enhance your home's architecture.

The very finest grades of oak, maple, cherry, pine, mahogany*, alder and vertical grain douglas fir. Other wood species are available through special order.

Divided light grilles in standard and custom patterns.

Stunning sidelights and transoms open a home to light and add a dramatic flair to any entranceway.

Optional handle hardware comes in a variety of styles and finishes.

A wide variety of glass options offer efficiency and beauty. Decorative glass options available.

Sidelights & Transoms

Sidelights and transoms can complement an entranceway or completely transform the look of the entire home. These charts demonstrate the range of configurations available for rectangular single and double doors. Sidelights and transoms can be used in nearly any combination, allowing arched openings to be filled with rectangular doors and arched transoms, and creating a world of possibilities for what was once a simple doorway. Contact your Andersen dealer for transom and sidelight dimensions, shape availability and specifications.

Interior Casing

Nineteen profiles of interior casing are available in accenting pine, maple, alder, cherry, oak, vertical grain douglas fir and mahogany.* Curved and lineal options are available.

* Actual wood is sapele, a non-endangered species of mahogany, grown in Africa, with color and characteristics similar to American mahoganies.

Hardware

Andersen® entranceways give you a multitude of hardware options. They can be predrilled for handle sets, knob sets and lever sets to accommodate most architectural styles and most manufacturers' designs. You can also choose lock and trim sets to match your Andersen® window and patio door hardware. With the exception of our Tribeca® and Albany styles, all are forged from the finest brass and finished in brass, bronze, chrome or nickel. Tribeca and Albany hardware is made from die-cast zinc with low-maintenance finishes. All Andersen® locksets work with both single-point locking systems and multi-point locking systems, which secure the door panel at the top, middle and bottom.

Capri Hardware

The Capri multi-point lock and trim set is compatible with all Andersen® entranceways, including 2¼" thick panels, as well as Springline™, gothic and extended-height doors that cannot accept other Andersen hardware. It is available in your choice of three finishes: polished brass, oil rubbed bronze and satin chrome.

Hinges

Standard ball-bearing hinges are available in stainless steel, white, polished brass and dark bronze.

Hardware sold separately. Distressed bronze and oil rubbed bronze are "living" finishes that will change with time and use. Bright brass and satin nickel finishes on patio door hardware feature a 10-year limited warranty. Printing limitations prevent exact finish replication. See your Andersen dealer for actual finish samples.

Aftermarket Hardware

For hardware manufactured by others (below), doors can be ordered predrilled for easy on-site installation. They can also be specified without hardware drilling.

Art Glass

Springline™ (213)

Shown in oak with
Diamond Lights art glass.

Designed For Your Door

Art glass adds color and beauty to your entranceway, while allowing you to make a truly individual statement. It is available for all Andersen® entranceways, and patterns can be modified to accommodate the size or shape of any glass area. For maximum energy efficiency and stability, art glass panels are permanently sealed between the insulating glass panes. Patterns in addition to those shown below are also available, as are custom designs. Ask your Andersen dealer for details.

Frank Lloyd Wright® Series

Adapted from windows Frank Lloyd Wright designed, this series remains true to the principles that governed his original work: simplicity, unity and nature. Each panel is handcrafted by skilled artisans using centuries-old techniques and, as often as possible, the glass is selected from the same sources specified by Wright himself.

Colonnade

Eucalyptus

Prairie Rhythm

Wichita

Classic Series™

The four styles included in our Classic Series™ panels represent major architectural design themes from the late 1800s through the 1930s. Their symmetric patterns are available in distinctive color schemes as well as colorless glass, and their coming may be finished with a gold tone, silver tone or antique patina.

Diamond Lights

Hardware manufactured by others.

*Actual wood is sapele, a non-endangered species of mahogany, grown in Africa, with color and characteristics similar to American mahoganies.

Divided Light

Andersen can provide just the right grilles to enhance any shape or style of entranceway.

You can choose a recognized pattern, such as Colonial, Prairie or Renaissance, recreate a specific design or have our designers work with you to craft a signature look. The illustrations below give you examples of some popular patterns in Straightline and Arched entryways.

Interior/Exterior Grille Combinations

Full divided light includes grilles on the interior and exterior of the entranceway. It is available with spacer between the glass panes for an authentic divided light appearance. For ease of cleaning, a simple removable interior grille is also offered.

Full divided light creates a look of architectural authenticity.

A removable interior grille makes cleaning easy.

Grille Profiles & Widths

Grilles are available in two standard profiles — Chamfer and Roman Ogee. All profiles are available in five standard widths:

3/4", 7/8", 1 1/8", 1 1/2" and 2 1/4"

Chamfer Profile

Roman Ogee Profile

Features & Options

A Tempered high-performance Low-E4® glass is standard. Tempered high-performance Low-E4® Sun glass is also available for added energy efficiency.

B Engineered timber stiles and rails in the door panels provide strength and stability. Choose from two standard panel thicknesses: 1¾" and 2¼".

C Panel interior surfaces are unfinished wood veneers. Available species are pine, oak, maple, alder, cherry, vertical grain douglas fir and mahogany*.

D Wood exteriors are standard. Aluminum-clad exteriors are available in 21 colors for most entranceway styles.

E Exterior panel mouldings are standard on most panels. Optional raised mouldings are also available on panel interiors and exteriors for added visual definition and style.

F Standard 4⁹/₁₆", 5¼", 6⁹/₁₆" and 7¹/₈" jamb depths are available to match the thickness of most walls. Custom jamb depths are also available.

● Doors are available in both inswing and outswing configurations.

Straightline (181)

With sidelights (183), direct-glazed transom and custom grilles. Hardware manufactured by others.

Weatherstripping

Flexible foam weatherstripping around the door perimeter, combined with a sweep watershed on the bottom of the panel, helps resist wind and water. Outswing doors include an additional rain skirt for greater protection against wind-driven rain.

Door Heights & Widths

Two standard heights, 6'8" and 8'0", and two standard widths, 3'0" and 3'6", are available for most doors.

Custom heights and widths are also available. Heights and widths shown are nominal. For actual unit and rough opening dimensions, contact your Andersen dealer.

*Actual wood is sapele, a non-endangered species of mahogany, grown in Africa, with color and characteristics similar to American mahoganies.

Sill Options

A wide variety of sill options are available for both inswing and outswing doors.

Outswing Doors

Outswing sills come in solid oak with metal tread finishes including anodized bronze and aluminum mill.

A low-profile sill is also available for outswing doors.

Outswing

Low Profile

Inswing Doors

Inswing sills come in solid mahogany* or solid oak with a variety of metal tread finishes including aluminum mill and anodized bronze.

Solid wood inswing sills and treads are also available in oak and mahogany*.

Warranty

Our limited warranty is non-prorated and fully transferable, maintaining its value throughout the coverage period, even if the property changes ownership. The limited warranty for Andersen® entranceways covers glass for 20 years. Decorative insulated art glass and non-glass parts are warranted for 10 years, with the exceptions of unclad door panels and doors used for commercial purposes, which are covered for 5 years. For details, please request a copy of the complete limited warranty from your dealer.

Straightline (194)

(sold separately) and custom grilles.

* Actual wood is sapele, a non-endangered species of mahogany, grown in Africa, with color and characteristics similar to American mahoganies.

IMPROVING THE VIEW OUTSIDE.

Respect for the environment is nothing new at Andersen.

For more than a century, it's been part of who we are. Our commitment to recycle and reclaim materials began simply because it was good business. Now it's part of our commitment to sustainability and responsible stewardship of all our resources. Andersen Corporation is committed to providing you with long-lasting, energy-efficient windows and doors.

Andersen makes windows and doors with options that achieve **ENERGY STAR® 6.0** certification throughout the United States.

Andersen is a charter member of the **U.S. Green Building Council** and a strong supporter of its LEED® (Leadership in Energy and Environmental Design) Green Building Rating System.

Andersen was the first window and door manufacturer with **Green Seal™** certified products. Please visit our web site at www.andersenwindows.com for a list of certified products.
